

WHAT WERE YOU READING EARLIER THIS EVENING?

I WAS READING AN ARTICLE ABOUT THE
FEAR OF BEING TOUCHED BY SOMEONE
ELSE... IT IS CALLED 'HAPHEPHOBIA'.

THE AUTHOR STATED IT CAN BE A VERY
DEVISTATING CONDITION TO BE SUBJECTED TO.

I WOULD THINK HAVING HAPHEPHOBIA
WOULD STILL BE BETTER THAN
HAVING A WHOLE PHOBIA.

THAT IS AN INTERESTING WAY OF LOOKING AT IT.

IS IT POSSIBLE TO HAVE A PHOBIA
OF PEOPLE WITH PHOBIAS?
