

**WHAT MAKES ICE FLOAT ON TOP OF
WATER, SUCH AS ICEBERGS IN THE
OCEAN ?**

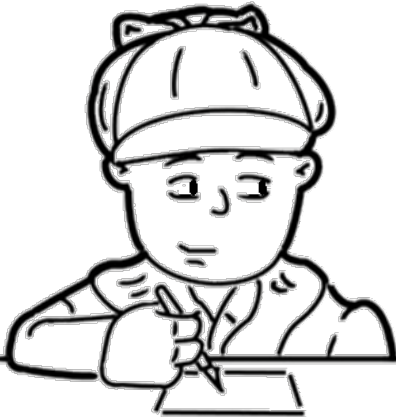

**EASY, ICE
MISSES
BEING
WATER...**

**SO IT RISES OUT OF THE
WATER... WHEN IT GETS
CLOSER TO THE SUN, IT
MELTS BACK TO WATER...**

THAT MAKES
SENSE...

REMEMBER, HE MAY
BE RUNNING THIS
COUNTRY SOME
DAY...

**SO IF A SHIP PAINTED RED
HIT AN ICEBERG THAT HAD A
BLUE COLOR TO IT, WHAT
COLOR WOULD THE
PASSENGERS BE?**

MAROONED, OF COURSE !!
